OFFICE OF LEGISLATIVE COUNSEL

Monday - 17 October 1966

STAT

1. [REDACTED] ORR, called to advise that Leon Herman, Legislative Reference Service of the Library of Congress, has indicated a strong interest in including in the Joint Economic Committee's upcoming study on Communist China the Agency's unclassified intelligence report entitled "Communist China's Balance of Payments, 1950-1965." I talked with Mr. Herman later in the day about this. He was very complimentary regarding the report and said he would like very much to use it with attribution to the Agency but would, of course, respect our wishes in the matter. I told Mr. Herman I would look into this and be in touch with him further.
